Myriade, a tradition in quality

In 1988, in a small town South-west of Montreal, Érick Laflèche, young entrepreneur, was looking for a business where he could make his dream come true to become self-employed. After searching for a business, Érick acquires a small lapel pin manufacturer. That's how Créations Myriade was founded. Because of the enthusiasm and drive of its founder, Créations Myriade quickly became successful enjoying a growing and loyal clientele. . Today, more than 20 years since its foundation, Créations Myriade is more than ever loyal to its mission: to always offer products of unparalleled quality at competitive prices. Thus ensuring a bright future for itself and your clients' satisfaction.
